

Classes

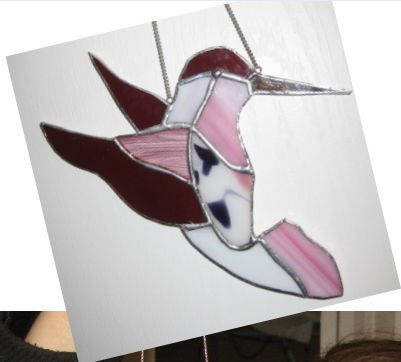

BEGINNERS STAINED GLASS CLASS

Seven evening sessions—two hours in length for a total of 14 hrs. With an opportunity of a make-up class should one of the sessions be missed, or to finalize the last project.

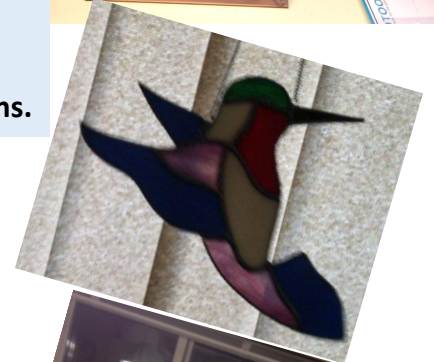

Course Description. Participants will learn the copper foil method of assembling stained glass items. Three projects, two flat and one three dimensional will be made during the course of seven sessions.

Project One:

Flat window Panel (Cutting straight lines).

Project Two:

Hummingbird Suncatcher (Cutting curved lines).

Project Three:

Small Lamp (creating a three dimensional project with straight and curved lines).
